

Uttam Kumar Pathak

Frontend Web Developer

+91 8292495623 | kumaruttampathak@gmail.com | [LinkedIn](#) | [GitHub](#)

Education

Year	Degree	University	CGPA
2023 – 2025	Master Of Computer Application	Galgotias University	8.7
2017 – 2020	Bachelor Of Computer Application	Magadh University	7.1

Profile Summary

Highly skilled and detail-oriented Frontend Developer with a strong foundation in JavaScript and React.js. Experienced in creating dynamic, user-friendly interfaces focusing on performance and responsiveness. Adept at translating design concepts into fully functional web applications while ensuring cross-browser compatibility and seamless user experiences. Passionate about staying updated with the latest frontend technologies and trends to deliver innovative solutions that meet user needs..

Projects

Movie Recommendation System

- Uses Cosign Similarity to measure the similarity between two vectors in machine learning and natural language processing.
- Developed a Model that recommends movies according to the user sentiments.
- Uses Heroku, a container-based cloud Platform as a Service (PaaS) to deploy my model to the webpage.

Weather Dashboard

- API Integration: Use JavaScript to fetch weather data from a public API like OpenWeatherMap. Dynamic UI: Update the UI dynamically based on the weather data received.
- Search Functionality: Allow users to search for weather information in different cities.
- Responsive Design: Ensure the dashboard looks good on desktop and mobile devices.

Portfolio Website

- Use consistent typography and color schemes throughout the web page.
- Consider using CSS Flexbox or Grid for layout, and media queries for responsiveness.

Experience and Certifications

Cybersecurity Essentials By Cisco Networking Academy

Mar 2024 – May 2024

Learned about tactics, techniques, and procedures used by cyber criminals, principles of confidentiality, integrity, and availability as they relate to data states and cybersecurity countermeasures, products, and procedures used to protect the confidentiality, ensure the integrity and provide high availability, etc.

Big Data Computing By NPTEL

Mar 2025 – May 2025

I learned about Introduction to Big Data Enabling technology, Platforms, Storage and Streaming platforms, ML with Spark, Application and Application Graph Processing, etc.

Skills

Programming Languages: JavaScript,Java,C,HTML5,CSS3, TypeScript, Python

Libraries & Frameworks: React,Tailwind

Databases: MongoDB, MySQL

Tools & Platforms:GitHub,
